

RAGAVAN B

MERN Stack Developer | Full-Stack Software Engineer

📍 Chennai, TamilNadu | ✉ ragav.b369@gmail.com | 📞 +91-7695864766 | 🌐 Portfolio | 🔗 linkedin | 🐙 Github

Professional Summary

MERN Stack Developer with hands-on experience building scalable, secure, and production-ready web applications. Skilled in translating business requirements into maintainable software while following modern software engineering best practices with a strong focus on performance, code quality, and user experience.

Technical Skills / Tools

Frontend & Backend: React.js, Nextjs, HTML5, CSS3, Tailwind CSS, shadcn/ui, Node.js, Express.js, RESTful APIs, Flask
Mobile & Desktop Development: Electron, Electron Vite, IPC (Inter-Process Communication), React Native
Languages & Databases: JavaScript, TypeScript, Python, Java, C, MongoDB, MySQL
Authentication & Security: JWT, OTP Verification, Role-Based Access Control (RBAC)
Tools & Version Control: Git, GitHub, VS Code

Projects

SRF-Enterprise E-Commerce Platform Github-Link

- Developed a full-stack e-commerce platform using React, TypeScript, Tailwind CSS, Node.js, Express.js, and MongoDB with 20+ core features across customer and admin modules.
- Integrated JWT authentication, Razorpay payments, and Cloudinary storage while designing 25+ REST API endpoints for products, orders, and user management.

Project VIBRANT — AI Voice Model Training Desktop Platform Github-Link

- Architected a cross-platform desktop application using Electron, React, TypeScript, and Flask, integrating a 7-stage AI voice training workflow across a unified interface.
- Engineered IPC-based communication with 10+ backend operations, real-time logging, CUDA detection, and CPU fallback for reliable long-running training tasks.

TaxPal - Personal Finance Platform Github-Link

- Created a MERN-based finance platform featuring budgeting, expense tracking, tax management, and automated reports across 8+ financial modules.
- Configured JWT authentication, OTP verification, and role-based access control to secure 15+ financial API operations.

Interactive UI/UX & Graphic Designer Portfolio Github-Link

- Crafted a responsive designer portfolio using Next.js and TypeScript with 6 project categories optimized for mobile, tablet, and desktop devices.
- Implemented Motion, GSAP, and Three.js interactions with 8 interactive features, including a 3D globe and animated cards.

Experience

Infosys Springboard Virtual Internship 6.0 Aug 2025 - Oct 2025

- Collaborated on developing the TaxPal finance platform during a 12-week virtual internship, delivering 8+ application modules using the MERN stack.
- Refined backend APIs and frontend integration through mentor feedback, improving organization across 20+ project files.

IEEE-CS Society Member Mar 2023 - Dec 2025

- Coordinated an inter-college RoboExpo with 100+ participants, managing event logistics and sponsor coordination.

Certifications & Achievements

- Qualified TCS National Qualifier Test (TCS NQT – IT), June 2026, with an overall score of 74% using Python. -Link
- IBM Full Stack JavaScript Developer Professional Certification (24 weeks) -Link
- NPTEL - Software Testing – IIIT Bangalore (12 Weeks) -Link
- II Runner-Up, Nexus 2K24 IEEE Project Expo – Recognized for the AI-based DeepFake Detection System. -Link

Education

S.A Engineering College Nov 2022 - Apr 2026

- BE. Artificial Intelligence and Machine Learning CGPA - 7.9
